Summary

Innovative Technical Leader and Unity Developer with over 4 years of experience engineering immersive mobile experiences. Proven track record of launching digital products and optimizing gameplay mechanics for performance and scalability. Proficient in C#, 3D/2D mathematics, and Unity architecture. Passionate about leveraging emerging technologies to solve complex engineering challenges in the gaming industry.

Technical Skills

- **Languages & Core:** C#, C++, Object-Oriented Programming (OOP), Data Structures & Algorithms.
- **Game Engines:** Unity 3D/2D (Physics, UI, Animation, DOTS), Unreal Engine (Familiarity).
- **Development:** Gameplay Programming, Performance Optimization, Profiling, Mobile Game Development (iOS/Android).
- **Tools & Version Control:** Git, GitHub, Visual Studio, 3Ds Max, Jira.
- **Soft Skills:** Technical Leadership, Product Launch Strategy, Research & Development, Agile Methodologies.

Experience

Hijra Tech LLC — **Rajkot, India**
Chief Technology Officer — *Jan 2025 – Present*
- Spearheading the technical vision and R&D strategy for new digital product initiatives, ensuring scalable architecture and market readiness.
- Leading the development lifecycle from concept to launch, overseeing code quality, technical design documents, and engineering milestones.
- Evaluating and integrating emerging technologies to enhance product features and streamline development pipelines.

Artixun Softwares — **Rajkot, India**
Game Developer — *Mar 2022 – Jun 2023*
- Engineered core gameplay loops for multiple Hypercasual and Role-Playing Games (RPG), focusing on retention and user engagement.
- Optimized game performance for low-end mobile devices, reducing draw calls and memory usage to maintain high frame rates.
- Collaborated with artists and designers to implement complex UI systems and responsive player controls.

UMX Studio — **Rajkot, India**
Game Developer — *Jan 2021 – Mar 2022*
- Developed realistic vehicle physics and player controllers for open-world racing titles "KOS" and "CSD".
- Implemented complex AI traffic systems and race logic, enhancing the single-player experience.
- Resolved critical bugs and optimized physics calculations for smooth gameplay across various mobile resolutions.

UMX Studio — **Rajkot, India**
Trainee Game Developer — *July 2020 – Jan 2021*
- Assisted senior developers in prototyping game mechanics and debugging legacy codebases.
- Gained hands-on experience with Unity's component-based architecture and C# scripting standards.

Agumenta Infotech — **Rajkot, India**
Intern — *Dec 2019 – Apr 2020*
- Contributed to early-stage software development projects, focusing on learning industry-standard coding practices.

Education

Marwadi Education Foundation — **Rajkot, India**
Master of Computer Applications (MCA) — *2018 – 2020*
Specialization in Computer Software Engineering

Marwadi Education Foundation — **Rajkot, India**
Bachelor of Science in Computer Science — *2014 – 2017*

Lejon Animation — **Rajkot, India**
Certification in 3Ds Max — *2015 – 2016*
Professional Course in 3D Modeling and Animation

Languages

English (Full Professional Proficiency) ▪ **Hindi** (Native/Bilingual)
